

My name is **Kalah Young**. I am graduating from the School of Health Professions at Townview Magnet Center with the goal of becoming a child psychologist. I am also a musical artist/writer, and soon to be published author. I spend my time writing, reading, taking photos of the sky, and binge watching almost everything on Netflix. “Everything PACE stands for is something I wholeheartedly agree with, which is mainly being a helping hand for your community. This is all I hope to do someday soon.”
